## AUTHOR INDEX AND ADDRESS DIRECTORY

The following is an alphabetic list of the names and addresses of all first authors of articles from the contents pages reproduced in this issue. The number opposite the author's name is the CC page on which the journal content page begins.

Addresses are listed under the first author's name. If the co-author is the person to whom reprint requests should be directed, the co-author's name will appear under the first author's name, preceded by the word "REPRINT".

If an asterisk appears after the page number, it means that no author address was given in the journal. Where the journal does not give an author's address, you may wish to contact the author through the publisher. See the *Publishers Address Directory* at the end of this issue.

Authors with the same last name will often have articles listed in the same issue of *Current Contents*. In using this directory, it is essential to verify that the author found here is the one you want by checking the author's name and article title on the contents page referred to.

A list of the abbreviations used in the *Author Index and Address Directory* is available by writing CC Dept., ISI, 3501 Market Street, Philadelphia, PA 19104.
